Birmingham Park

WORK DAY

Volunteer Instructions

- People sawing, please consult with team leader before cutting a large tree.
- Do not cut Beech or Dogwood trees; however, you may trim these trees.
- Trail Ribbon Knots are facing the trail. Cut back brush 6-feet from this knot.
- Cut small trees to ground level and do not leave a stump that would be hazardous to hikers and horses.
- Cut brush, branches, vines etc. 9-feet high when possible to accommodate height of horse and rider.
- When trimming large tree branches, cut the branch at the trunk and do not leave a portion of the branch that could injure someone.
- Those cleaning up trail debris cut down or previously fallen should just lay it to the side of the trail.

Safety Equipment If Possible

Safety Hat

Gloves

Safety Vest

Garbage Bags for Trash found on Trail
